Please check all the services that you would like to have performed at the time of the exam:

**Clinical Examination** – This examination includes a general health exam evaluating the eyes, heart, lungs, gastrointestinal and musculoskeletal systems. A dynamic evaluation of the horse's gait will be done to assess for lameness or other abnormalities.

**Radiographs** - Please select the option that best fits your needs.

Only areas of concern – When areas of concern are identified on clinical exam and x-rayed, these will be charged per radiographic view.

Standard Screening Radiographs – This package includes 18 radiographs at a discounted rate. Views in this package usually include 4 views of each front foot, laterals of each fetlock, and 3 views of each hock.

Comprehensive Screening Radiographs – This package includes 32 radiographs at a discounted rate. Views in this package usually include 4 views of each front foot, 4 views of each front fetlock, 2 views of each hind fetlock, 4 views of each hock and 2 views of each stifle.
